The Dobbins/Oregon House F.P.D., Company 64, operates out of one main station (pictured left). Additionally, the department has two satellite stations on the outer edges of the 72 square mile response area. The main station, Station 1 is located at 9150 Marysville Rd. Oregon House, CA 95962. Station 1(left) houses the apparatus pictured below.

The two satellite stations contain a total of three additional pieces of apparatus. In total the department runs approximately 250-350 calls a year. There are 15-20 dedicated volunteer firefighters that operate one light rescue, three type II engines, one type III engine, and two water tenders to protect the community.
